

Enhanced Incentives for your Business and Property

2023 Distressed Municipalities Offer

 Upgrade your lighting, building envelope, refrigeration, or explore opportunities for enhanced HVAC equipment and controls.

Eversource is offering enhanced incentives towards electricity-saving improvements for customers participating in the Energy Opportunities and Multifamily Initiative programs. This offer is specifically tailored for businesses and properties in the select towns (listed in the sidebar).

These enhanced incentives of \$0.10/kWh or an additional 10% to cost caps (\$50k maximum additional incentive per project) are aimed at making your energy-saving decisions easier, while improving your operating costs quickly and efficiently.

Energy-saving solutions that qualify for bonus incentives include:

- Enhanced or high-performance-tier lighting
- HVAC equipment
- HVAC controls
- Refrigeration
- Energy Management System upgrades
- Building envelope upgrades
- And more

Ask our Energy Efficiency Consultants how you can improve the performance of your facility with energy-saving opportunities or call 1-877-WISE-USE for more details.

List of qualifying towns:

- Bristol
- Chaplin
- East Hartford
- Enfield
- Griswold
