

Enhanced Incentives for your Business and Property

2024 DISTRESSED MUNICIPALITIES OFFER

Upgrade your lighting, building envelope, refrigeration, or explore opportunities for enhanced HVAC equipment and controls.

We are offering enhanced incentives towards electricity and natural gas saving improvements for customers participating in the Energy Opportunities and Multifamily Initiative programs. This offer is specifically tailored for businesses and properties in the select towns (listed in the sidebar).

Electric enhanced incentives of \$0.10/kWh or an additional 10 percent to cost caps (\$50k maximum additional incentive per electric project).

Natural gas enhanced incentives now include \$2/ccf (\$50k maximum additional incentive per gas project).

These incentives are aimed at making your energy-saving decisions easier, while improving your operating costs quickly and efficiently.

Energy-saving solutions that qualify for bonus incentives include:

- Enhanced or high-performance lighting
- HVAC equipment
- HVAC controls
- Refrigeration
- Energy Management System upgrades
- Building envelope upgrades
- Boilers
- Pipe insulation
- And more

Call **1-877-WISE-USE** (947-3873) and ask how you can improve the performance of your facility with energy-saving opportunities

Offer valid while funding is available for this enhanced offering.
